

Appointing an authorised representative

Are you shipping packaged goods to Germany from another country? Are you an online retailer, importer or similar? If the answer is 'yes', you have to comply with German packaging law. You must: register with the LUCID Packaging Register; conclude a system participation agreement with one or more system(s) for your packaging subject to system participation; and regularly submit data reports about your packaging volumes.

International companies without a branch in Germany **can appoint an authorised representative located in Germany** to fulfil their obligations under packaging law for them – with the exception of the registration requirement.

i Appointing an authorised representative is optional.

Who can be an authorised representative?

- ✓ Every natural or legal person with a registered office in Germany who
- ✓ has concluded a written agreement with a producer under obligation about the appointment and
- ✓ has an authorised representative login for the LUCID Packaging Register.

Which obligations under packaging law can be fulfilled by an authorised representative?

- ✓ Conclude a system participation agreement with one or more system operator(s)
- ✓ Regularly report data to the LUCID Packaging Register
- ✓ Submit declarations of completeness to the LUCID Packaging Register
- ✗ The producer is required to personally register with the LUCID Packaging Register and perform any updates related to the registration personally. This cannot be done by an authorised representative.

How can an authorised representative be added to the LUCID Packaging Register?

First of all, you must have chosen an authorised representative and concluded an agreement in German with them.

 Producers ...

... place packaging filled with goods on the German market.

! Please note: Your authorised representative has to confirm their appointment in the LUCID Packaging Register. Until this confirmation has been received, the producer under obligation is required to fulfil all obligations under packaging law themselves.

The ZSVR confirms that your authorised representative has been added by issuing an administrative act. The authorised representative's data will be published in the public register of producers at <https://oeffentliche-register.verpackungsregister.org/producer>
